Jukify Progress Statement – Increment 2

1. Progress description

1.1 Frontend app

- New UI Design
 - Entire theme, new assets, icon
 - Toolbar
- Fetches playlists from Spotify so party master can start the party
 - Does not proceed if no playlist is selected
- Joining the party through QR Code

1.2 Backend

- New calls implemented
 - Serving most of the functionality of the application
- Unit tests development started
- Documentation started
- Fully on remote server

1.3 Next steps

- Finishing frontend app functionality
- Frontend unit testing
- Queue handling on the backend (dynamic appending to static playlist that is requested from Spotify to preserve playing order)

Jukify	
Progress Statement Increment 2	Date: 09.12.2021

- Minor error handling (no devices for Spotify player, random crashes of the app)
